

LED Uplight, Omnilite and Mini Tasklite

The Uplight, Omnilite and Mini Tasklite are part of our new range of cost effective, 110V, LED site lights developed for the UK construction industry, which utilise the latest long life, low energy LED technology. All models provide an efficient, low maintenance alternative to traditional fluorescent task lights for local area site lighting.

The LED Mini Tasklite is a directional light fitted with a COB LED and is ideally suited to provide localised illumination on site. The Uplight and Omnilite incorporate high output SMD LED arrays, which provide an even spread of light through 360° around the luminaire. They also incorporate circular, opaque diffusers, which eliminate the glare often found with LEDs. All assemblies are rated to IP44 and are suitable for indoor or outdoor use.

Omnilites

The Omnilite is a versatile 110V site light incorporating a 30 watt SMD LED array with a light output of 2800 lumens. It can either floor stand or be suspended via an integral hook. An easy to fit magnet kit is also available, enabling Omnilites to be attached to steel surfaces without any fixings. A 16A socket is also incorporated, which can supply a chain of Omnilites or a small power tool. Omnilites are pre-wired with a 5 metre input lead fitted with a 16A 110V 3P plug.

Uplights

Uplights incorporate an LED light source that is rated at 36W, is 3' in height and has a light output of 3050 lumens. A 16A socket is also incorporated, which can supply a chain of Uplights or a small power tool. Uplights are pre-wired with a 3 metre input lead fitted with a 16A 110V plug. Uplights incorporate a sturdy stand, which collapses for shipping, thereby minimising the space required for storage, both on site and in transit.

LED Mini Tasklites

Mini Tasklites are compact, light weight, floor standing luminaires fitted with a 20W COB LED light source with a light output of 1800 lumens. Mini Tasklites are supplied ready wired with a 3 metre input cable complete with a 16A 110V 3P plug.

S061011 Omnilite + Magnet Kit

S240004 3' Uplight

S061041 LED Mini Tasklite, 20W

Part No.	Type	Description
S061011	OL/110/30/16/5/S1/LED	30W LED Omnilite c/w 5m, 16A input lead and through socket
S060739	MBK	Magnet kit for Omnilite
S061041	LED/MTL/110/20/3/16	20W LED Mini Tasklite c/w 3m, 16A input lead.
S240004	UPLED/110/36/3/16/S1	36W LED Uplight, 3', 110V c/w 3m, 16A input lead and through socket
